MAKERS OF THE  
WALKER PEENIMPAC

Model S-2-8 T

The model S-2-8 T is the smallest two-wheel machine that we manufacture. It has a removable basket that can be configured for many types of applications. This model has a capacity for a 24" diameter basket 45" wide. Average cycle time for this machine is 12 minutes.

The width of the machine allows for long parts to be placed in the machine and still provide a cost effective solution to your blasting needs. With two 3 horsepower blasting motors as standard, this machine provides aggressive cleaning with minimal electrical consumption. The model S-2-8T is matched to our model BB dust collector to provide a blasting system that is both cost effective and power efficient.

- Blasting Wheels: 2
- Horsepower: 3 each
- Basket Size: 24in Dia. x 45in Wide
- Cycle Time: 12 min. average
- Footprint: 42in Wide x 36in Deep x 65in High
- Basket Speed: 2 RPM
- Dust Collector: Model BB
- Cabinet: 3/16in thick Abrasive Resistant Alloy
- Construction: Bolt-together for easy replacement of components
- Electrical Consumption: 5.6 KWH
- Electrical: 3 phase, 230 volt or 460 volt
  - Nema 12 enclosure
  - All motors thermal overload protection
  - All motors totally enclosed fan cooled
- Safety: Blast wheels only operate if door is closed
  - Cable pull switch across machine front
